

## The \$1K Away Oath:

1. I value **doing** more than **being perfect**.
2. I will place virtual trades, **even if I'm scared / uncertain**.
3. I will post daily trade updates in discord (**even if it's not my desired outcome**).

## Today's Outcomes

- How to install OPS (brief review).
- Learn trend identification through an OPS lens.
- Watch how to setup & use the OPS scanner in TradingView (brief review).
- Learn the art of ignoring... (with a funny story from my mom).
- Learn how to put it all together and establish high-confidence direction.
- Assignments and next steps.

# Installing OPS

## Quick OPS Install (No Marathon)

- When in doubt...go watch the resource videos.
- The short version:
  - Grab links from your dashboard
  - Install the OPS chrome extension
  - Install the OPS oscillator (aka setup indicator)

# Identifying Trends the OPS way

---

---

---

---

---

---

---

---

## Why do trends matter for swing traders?

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

**Most technical  
analysis is based on  
the foundation of...**

---

---

---

---

---

---

---

---

**But do it for the  
right reasons.**

---

---

---

---

---

---

---

---

**The Art of  
Ignoring**

---

---

---

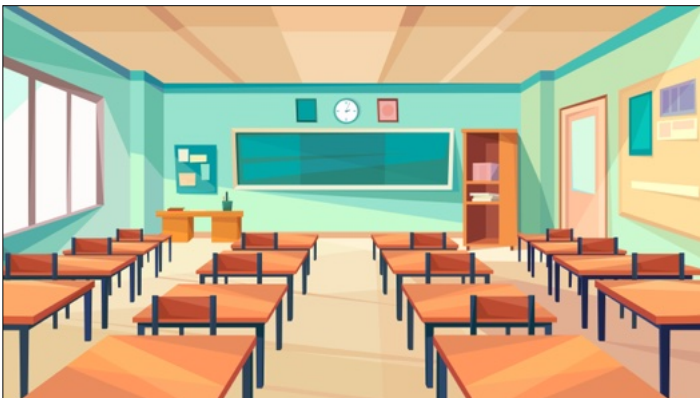

---

---

---

---

---

---

---

---

---

---

---

---

---

**Focus on what  
matters. Don't get  
overwhelmed.**

---

---

---

---

---

---

---

---

## What Matters

- Technical analysis
- Lines and boxes on the chart are the KING.
- Community & accountability
- Indicators... understand their weaknesses
  - MAs lag by ~half their length
  - Stochastic lags by 1-2 days
  - RSI is "realtime" but noisy

---

---

---

---

---

---

---

---

---

## What Doesn't Matter

- Every single indicator lining up
- The media / news
- Emotions (especially FOMO on entries on exits)
- Making a profit every single day
- Making a trade every single day
- Finding every single opportunity in the stock market ever.
- Combining every system ever into a hybrid Frankenstein strategy.

## Assignments & Next Steps

- Build a 5-Stock Watchlist
- Label: A / B / Pass
- Post Screenshot in Discord
